NUITEQ SNOWFLAKE

Read Me! interactive learning ✪ fun

Note+

All EduTouch Panels include: Note Interactive Software, ReadMe Literacy, Snowflake and 4 hours of basic training.

IG3 Education, trading as Eduss Learning's success in the school market is attributed to the fact that the company is not an AV supplier, but rather an Education Solutions Provider. IG3 Education understands the needs of teachers and provides solutions that are always aimed at practical use within the classroom – knowing that ultimately, the hardware installed is a means to an end. This focus on Education Solutions gives teachers the ability to use superior technology, whilst bringing greater flexibility & support to the classroom, as well as delivering the "*wow*" factor to the students.

- Solution designed specifically for Schools and Kindergartens.
- The ability to do gesturing and other multi-touch functions similar to that of handheld devices such as iPhone, iPad and other smart phone and tablet brands (a function many younger school learners are comfortable with).
