## Church Price Guide

# Price Guide

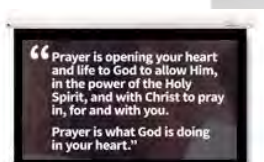

## Installed Audio Systems

from \$3,850.00 ex gst

We specialise in audio for all Houses of Worship.

Our design team will assess your needs and custom design the right system for your Church with "Clarity of Speech" being our number one priority.

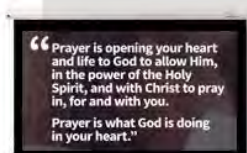

## Church Projection

from \$4,199.00 ex gst

Consisting of high-grade components and a simple "one touch" operating system our **Church Projection Solutions** offer bright and powerful projection with fully automated electric screen/s and a simple to operate wall connection plate.

Our one touch solution eliminates the requirement for complex remote control units that are often lost, broken or require new batteries.

Operation of the system is intuitive and requires very little training.

## Church Lighting

from \$4,500.00 ex gst

Church Lighting Systems are custom designed depending on client's needs/budget and/or requirements.

We utilise the latest in LED technology and our lighting systems come with full onsite installation and a fully pre-programmed lighting controller.

Supplied lighting desk gives you all the manual controls and automation you need to get the most out of your LEDs. Best of all, it's so easy to use you don't need to be a lighting expert to run it.

We will pre-program some scenes in the lighting desk for you and also offer full staff training ☺

## Installed Acoustic Treatment

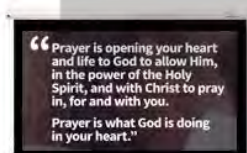

from \$1,799.00 ex gst

Acoustic Treatment is often the solution in rooms where maximum control over primary reflections is required.... Such as Churches with high ceilings.

Installation of our sound absorbing panels attenuates the *reverberant* field and improves audio quality..... the result, a far more *pleasing* audio for all parishioners to enjoy.

### Features

- Full size panels provide maximum absorptive surface
- Rectangular shape integrates with most room designs
- Surface, Off-Set, Corner or Push-On mounting options
- Combine with Accent panels for architectural flare!

## Hearing Assistance

from \$1,650.00 ex gst

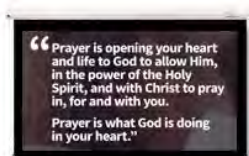

Our innovative digital wireless **Hearing Augmentation** systems are ultra compact, lightweight and easy to use. These are often the solution when installing an under carpet "Hearing Loop" is not an option.

Digital design provides crystal-clear audio quality, secured and reliable transmission, and insensitive to interference attributes that are unmatched by the deficiency of simple analog design systems.

Built-in lithium polymer rechargeable batteries are used in personal neck worn receivers to resolve the troubles of changing batteries and save you a significant amount of money in years to come.

The personal neck worn receivers may be tuned into a hearing aid or can be supplied with comfortable head worn headphones.

Systems are supplied with transmitter & receivers (*neck loop cables as required*) and are ideal for small to large churches requiring an effective Hearing Assistance System.

## Installed Hearing Loops

From \$3,995.00 ex gst

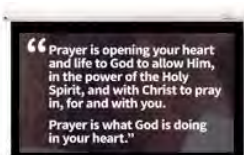

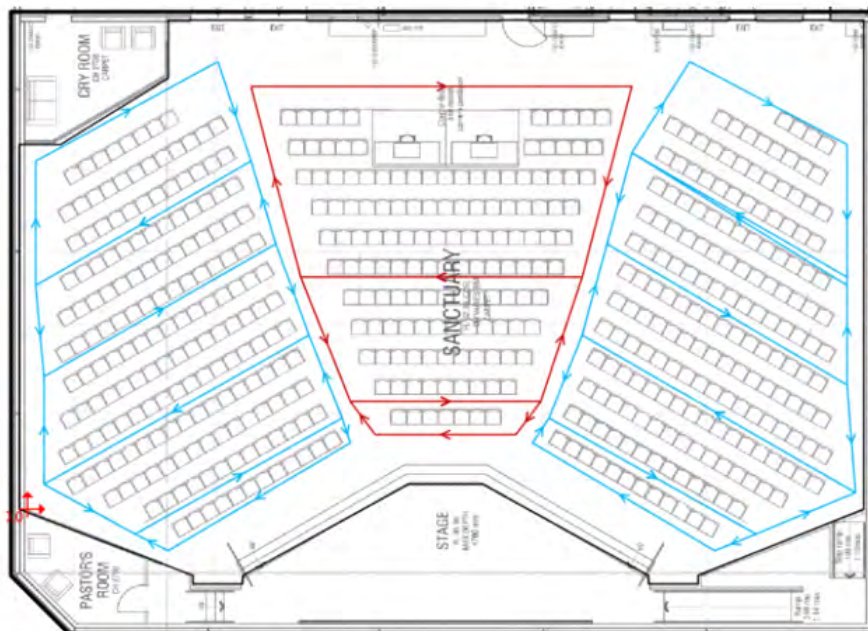

3 Monkeys Audiovisual can design, install and commission your induction loop system.

This may be a simple perimeter loop or may require a more complex design which we are *happy to offer free of charge*.

Whether simple or complex, our experienced design team will ensure the right Hearing Loop System is designed & installed in your church.

Suggested Hearing Loop Lay-out

## Microphones

from \$129.00 ex gst

3 Monkeys Audiovisual offers every possible microphone solution.

Ranging from a simple hand held microphone with a cable through to sophisticated wireless options and lectern microphones.

Our services also extend to a **free onsite assessment** of your needs and installation where required.

## Portable PA Systems

**from \$499.00 ex gst**

Portable pa systems are an excellent solution when your house of worship needs audio which is not dependant on mains power. Our rechargeable pa systems may be used for up to 6 hours on a single charge and are optioned with various choices of wireless microphones, cd players or even built in bluetooth for wireless music playback.

The ideal solution for outdoor services or Parish Halls (*meetings, functions etc*).

Supplied with full onsite set up and staff training.

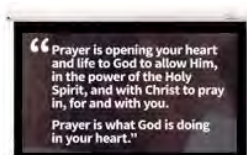

## Servicing

from \$320ex gst

Audio systems, Projectors and other forms of display technology are the most utilised audiovisual items in your Church. Therefore it is essential that these audio visual devices are serviced regularly to ensure trouble free operation.

Many manufactures warranties are based upon the condition that the equipment is regularly maintained. Servicing your AV equipment therefore not only extends the life of your equipment but ensures the manufactures warranty is extended to the full provision.

Our fully qualified technicians are able to carry out most services onsite to ensure your equipment continues to operate at its full potential.

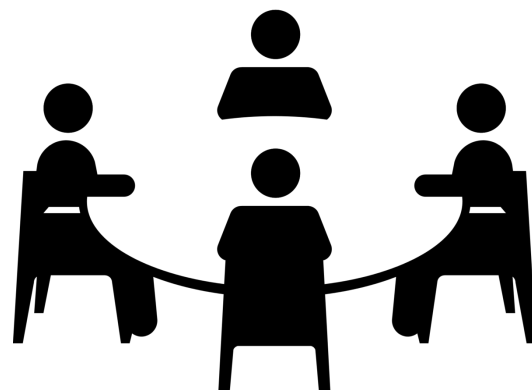

## 1. Reliable, quality audiovisual equipment that works

- We use top AV brands with proven performance and reliability.
- Every AV system is assembled and tested in our workshop by qualified technicians before installation in order to minimize any potential AV problems occurring later.
- As commercial/corporate AV specialists, all of our equipment has been thoroughly road tested and proven by our existing client base.
- 3 Monkeys AV is at the forefront of audiovisual technology, bringing you the latest time saving and breakthrough educational systems.

## 2. Expert advice on the right equipment and set up

- Our AV specialist team have over 80 years collective experience.
- With over 10,000 AV installations and hire jobs, our consultants and technicians know the best solutions for your company.
- To determine the best products and systems for your installation, we conduct a unique 3 Stage "AV System Analysis and Plan". This involves:
  1. Site meeting to identify your needs
  2. Preparation of a plan (proposal, budget, implementation timeline)
  3. Presentation to explain your various options.

## 3. Professional installation with a neat and tidy finish

- Our installation technicians are fully employed (not contractors), ensuring quality control on our workmanship and installation.
- Our project manager and technicians are conscious of minimizing disruptions during installation periods.
- We believe in leaving your environment as we found it, so our installers carry vacuums, drop sheets, dust pans and brushes.
- Your AV install will have a neat, tidy & clean finish, with all cables hidden or contained within conduits or ducts.

## 4. Thorough training, personalised service and timely support

- All our AV installs include comprehensive training to ensure your staff get the full benefit of the equipment and system.
- As specialists in commercial/corporate AV, we have both AV trainers and ex teachers to educate your staff in using the audiovisual equipment effectively.
- We are committed to providing regular ongoing phone and face to face support.
- Whilst many others sell AV product and move on, 3 Monkeys AV will provide timely support, customer service and trouble-shooting for the life of your AV equipment & systems.

## 5. Reputable, professional AV specialists

- 3 Monkeys AV is a team of specialists who have worked in all areas of audiovisual in Perth over the last 25 years.
- All our staff are well presented, wear company uniform, mind their language and remember their working environment is your business.
- Our company is fully insured and professionally run. We carry licenses with APRA and ACMA.
- Our specialist staff are all police cleared, hold Working With Children Checks and have completed all relevant safety training.
- You will be looked after by a WA owned and operated team that cares about your company & staff.
